

## GLASS BOY 350 - 770

- 350 kg - 770 lbs lifting capacity
- Dual vacuum system for greater safety
- 4 x 280mm (11") vacuum pads
- On-board 12 V battery
- On board reserve vacuum tanks for each vacuum line
- Digital vacuum sensors to maintain safe vacuum levels
- 360 degrees rotation
- 90 degrees tilting function
- Single mechanical lever to control rotating and tilting
- Vacuum cup spread 663mm x 790mm – 26" x 31"
- Crate Dimensions – 29" x 33" x 20"
- Crate Weight: 100kg (220 Lbs)

## GLASS BOY 500 - 1100

- 500 kg - 1100 lbs lifting capacity
- Dual vacuum system for greater safety
- 8 x 12" vacuum pads
- On-board 12 V battery
- On board reserve vacuum tanks for each vacuum line
- Digital vacuum sensors to maintain safe vacuum levels
- 360 degrees rotation
- 90 degrees tilting function
- Single mechanical lever to control rotating and tilting
- Vacuum cup spread 1570mm x 1104mm – 61" x 43"
